Programmatic Advertising

Digital media continues to become more fractured as more media types go digital. VistaMedia's Programmatic advertising solutions unify the fractured marketplace into a single platform, with a single user interface.

This is modern digital marketing made easy.

WHAT IS PROGRAMMATIC ADVERTISING?

Programmatic advertising with VistaMedia allows a client to reach their ideal target market anywhere, at any time, on any device. Leveraging real time bidding in a live auction environment, VistaMedia's Programmatic solution represents the most scalable audience solutions available in today's world of Programmatic advertising.

DEVICE ID / GEO-FENCING

There are three things you won't leave your house without... Your phone, wallet, and keys. Mobile phones provide a unique view into user behaviors, frequently visited locations, home, and work habits, interests and much more.

WHAT IS GEO-FENCING / DEVICE ID TARGETING?

Every mobile phone has a unique device ID number that is anonymously associated with the carrier of the device. Device ID Targeting and Geo-Fencing take advantage of that by monitoring the location information associated with each device.

MICRO-PROXIMITY / GEO-FENCING

Location based targeting is evolving rapidly, making real time messaging more powerful than ever.

WHAT IS GEO-FENCING / MICRO-PROXIMITY?

Geo-Fencing and Micro-Proximity targets people based on their current actual physical location. If a marketer wants to reach anyone currently residing in 15 selected motels in real time, now they can. With Micro-Proximity, marketers identify specific commercial locations where their ideal target audience is located.

CONVERSION ZONE

By "fencing" your business as a conversion zone, we can track & report actual foot traffic from people who have seen your ad.

FACEBOOK ADVERTISING

Device ID targeting capabilities can now be published to Facebook! Device ID targeting is a cookieless historical geo fencing solution that allows marketers to create custom, unique, and robust 1st party audiences as well as track foot traffic from these users to brick-and-mortar locations.

The power of social media in 2025 cannot be overstated. Coming off of a year where social engagements were mostly virtual, Facebook and other social media channels continue to see increases in active users and time spent on the platform. More than 60% of the U.S population over the age of 12 uses Facebook, and users spend an average of 34 minutes per day on the platform. With nearly 80% of those users only accessing the platform via their mobile device, Facebook Device ID is a must-have in any marketing mix.

PROGRAMMATIC VIDEO

Video Advertising is a fun and unique way to connect with a target audience. Many marketers have already made the investment in high quality video content and are seeking ways to creatively introduce that content to their target audience. VistaMedia's Video Advertising solutions can help brands tell a story to the desired target audience in real time, at anytime, anywhere in the world.

WHAT IS PROGRAMMATIC VIDEO?

Programmatic Video and Video Advertising is simply running 15-second, 30-second, and long form video ads within online video content at scale. Commonly referred to as Pre-Roll advertising, Programmatic Video is as scalable as banner advertising with all of the innovative targeting options but in a more desirable video format. With features such as skippable vs non-skippable, completion rates, viewability and more, Video Advertising has never been easier or better for a local marketer.

Programmatic Video Advertising offers all of the features standard banner ads offer, but in a video format. Programmatic Video is now as scalable as banner advertising with all of the innovative targeting options in the more desirable video format.

CASE STUDY

MARTINSBURG-BERKELEY, WEST VIRGINIA

Martinsburg-Berkeley, WV is a small historic town neighboring northern Virginia. They are home to several fun events and want to make sure these events are promoted to their eastern neighbors across the Virginia border. Over 150,000 Ad Messenger ads were delivered and more than 4,000 people visited the event's website with a click thru rate (CTR) of 2.8%. It's also just not that hard to talk people into attending a doughnut eating contest!

Vista Web Visitor ID

GET FIVE TO 25X THE LEADS

You develop strategies and tactics to get people to come to your website, and they do. Then 95% of those visitors wander around a bit and leave. No kiss goodbye. No forwarding address.

VistaMedia Web Visitor ID gives you a second chance to connect with 25 to 45% of those visitors you generated.

What we do.

VistaMedia Web Visitor ID captures the contact information of 25 to 45% of your website visitors with no web form required. You can get name, email address, postal address and phone number. You also get the exact pages they visited on the website and how long they spent on each of those pages. That's pretty amazing stuff if you want to start a conversation with people you know are interested in your product or service.

Post card campaign available whereas determined leads are mailed a postcard with in 2-3 days of visit to your website.

Price is dependent on postcards sent.
